About

 I have been working as a full stack engineer since 2015. Working with Microsoft since 2018.

 A team player who is passionate about helping and collaborating within the team to make the businesses succeed.

 Always ready to learn new things which helps me to choose the most effective methods for solving difficult problems.

⚡ Proactive contributor and doer attitude.

Current Job Responsibility

50% Feature Development (Coding & Unit Testing, PR Process).

25% Developer Technical Implementation Support To Microsoft Product Users.

15% Collaboration with team and contribution preparing new hire.

10% Learning new technical adaptation.

I Like to

```
Write clean, readable, reusable and easily maintainable code.

Scalable and secure RESTful APIs.

Full SOLID implementation.

Code Refactoring, Code smell tuning.

Design pattern and architectural enhancement.

Design, Develop, maintenance Azure Service Infrastructure.

Disciplined life style, Travel New Places, Play Badminton, Physical Exercise
```

Technical Skills

 Programming

```
C#, ASP.NET Core, Web API, DotNet 5-6, Entity Framework All version.

Data structure and call stack mechanism.

Object Oriented Programming, Code Refactoring.

Asynchronous request handling, Thread management, Locking mechanism.
```

 Database SQL Server(Any version after 2012), Postgre SQL, My SQL

```markdown

```
 Data Modeling and Normalization using 3NF

 Entity relationship diagram (ERD)

 T-SQL Any Level of Complexity

 Complex Store Procedures or Trigger and Views

 Transaction control with full ACID implementation

 T-SQL Optimization and Performance Tuning

 Manage Transaction Isolation Level and database concurrency
```

 **Microsoft Bot Framework** `Azure Bot V4`

```markdown
   AI, LUIS and QNA maker Integration

   Custom conversation flow development using adaptive card
```

 Azure

```
   Azure Active Directory

   Microsoft Graph

   Azure SQL

   Azure Functions

   Azure Cognitive Service
```

 Version Control

```
   Azure DevOps

   GitHub

   GitLab
```

Business Domain

```
   Azure SAAS, PAAS, API Integration, E-Wallet, Payment Getaway Integration.

   Logistics, E-Ticket, Employee Labor tracking system

   User Financial Info Chat Bot Service.

   Customer Support Bot, FAQ Bot, Business automation bot.

   Warehouse Inventory Management.

   Supply Chain Management.
```

International Certifications 🏅

MCSD(Microsoft Certified Solution Developer)

Microsoft Virtual Academy

Since: May 8, 2015

Link: Check Here

MCP (Microsoft Certified Professional)

Microsoft Virtual Academy

Since: March 1, 2015

Link: Check Here

Professional Certifications 📜

Diploma in software Architecture Analysis & Design

```
Institute: ISDB, Dhaka Bangladesh
Duration: 2 Years
```

IT Engineers Certificate Exam

```
Institute: BJET, Japan
Level: IT Passport
```

Azure Web Services - Cloud Computing

```
Institute: Udemy
Level: Certified Solutions Architect
```

Global Data Protection Regulation (GDPR)

```
Institute: Microsoft
Level: Advance
```

Academy 🎓

Masters In Information Technology

`Major: Software Engineering`

University Of Dhaka, Bangladesh

Since: 2014

Article ✍

9. Date Time Picker Issue On Razor Page Edit Mode

8. Restrict Specific Route Using Action Filter.

7. DotNet 6 Unit Of Work Implementation.

6. Enum Key Value In TypeScript.

5. Configuration Guideline For Azure App Service And Azure Bot.

4. How Microsoft clarify Difference between Web App Bot and Azure Bot.

3. Chart Js A Details Implementation.

2. Adaptive Card Customer Feedback Implementation Using Bot Framework 4.

1. Custom Tokenization Database First.
